

In response to growing demand for a safe, convenient way to dispose of household medications, the Sheriff's Department teamed up with County Public Works to install drop-boxes at each of the Sheriff's nine substations throughout the county.

Residents can bring all types of unwanted medications, including prescription and over-the-counter drugs.

For further information about the program, please contact:

Additional funding and support is generously provided by the cities of Goleta, Lompoc, Santa Barbara, and Santa Maria.

OPERATION MEDICINE CABINET

A program for **Santa Barbara County** residents to safely dispose of unwanted household medications.

Why is it important to get rid of unwanted medications?

- Teenagers and young adults are abusing medications – some taken right from their parents' or grandparents' medicine cabinet – at an alarming rate.
- Young children and pets accidentally ingest medications found around the home, leading to potential poisoning.
- Seniors can mistakenly mix incompatible medications or take expired drugs that may be harmful to them.

Why should we avoid flushing medications or throwing them in the trash?

- Wastewater treatment facilities are not designed to remove many of the constituents found in medications, so these materials pass untreated into our water system. Researchers have detected trace elements of medications in numerous water bodies nationwide.
- Medications thrown in the trash are susceptible to retrieval by individuals or pets. When sent to the landfill, medications can potentially enter the environment.

The following items can be deposited in the medication drop boxes:

- Over-the-counter medications
- Prescription medications
- Medication samples
- Medications for household pets
- Medicated lotions or ointments

The following items are NOT accepted:

- Needles or other “sharps”
- Hazardous waste
- Thermometers
- Personal care products
(e.g. non-medicated shampoo, soap, perfume, etc.)
- Trash
- Mail
- Lost and found materials
- Empty containers
- Business/professional waste

Please keep medications in their original containers and remove or scratch out all personal information, including name, address, and phone number.

Remember, this program is for household medications only. Medical professionals are not eligible.

Collection Locations:

The Sheriff's Department will accept unwanted household medications at each of its nine substations throughout the county. Unless otherwise noted, all drop-boxes are located outside in front of the stations.

Carpinteria – 5775 Carpinteria Avenue
